

World Swim joins DunkMalaria

Saturday, 04 March 2006

The World Swim For Malaria has joined with DunkMalaria.org to offer Dunkers a great new feature to increase their fundraising potential: your very own SponsorUs! page.

There are many benefits to having an online SponsorUs! page, including:

- Easy to create: It takes only 2 minutes.
- Effective: Send a few emails to friends with the link to your page
- Fun: You are sent an email every time someone sponsors you…
- Efficient: You never have to collect any money as this happens automatically via the website!

Plus:

- Simple for sponsors: you just point them to your page and say ‘Please sponsor us!’
- Transparent for all: all transactions automatically trigger email confirmation receipts and you can see at any time how much you have raised
- Sponsors can leave you messages: Sponsors can enter a message when they sponsor you
- Set a target: Set your own target - it’s always fun to set a target and beat it
- Pay money raised online: Easy! Just go to your page and pay in with a credit card
- Personalize your page: Add a picture…
- You'll have global reach: Friends across the US/around the world can sponsor you. Anyone can get to your page. Just send them the link…!

Get started here.
